Allowance

1. The following is an examiner's statement of reasons for allowance: claims 1, 3, 6-8 and 11-15 are allowed in view of applicant's amendment. As to claims 1, 3 and 6-8, although Prittinen et al discloses (see Figs. 3 and 5) a shaft section (172) for the applicator, the applicator tip (probe 170) is not connected to the pump (75) through the shaft section (172). In Prittinen et al, the tubular applicator is coupled to the pump through a tube (30). Prior art of record does not disclose or suggest the combination of the limitation in the apparatus for applying a thermal conductive medium to an inside portion of a sheath, wherein the applicator tip is coupled to the pump output through an applicator shaft. Regarding applicants' claims 11-15, the prior art of record is also silent as to the specific locations of the hole of the applicator tip and its connection to the pump.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
